### **Pasaban supplies 2 new paper sheeters to Asia Symbol (Guangdong) in China**

[Asia Symbol Paper Company](#) has once again entrusted Pasaban with the design and manufacture of 2 paper sheeting machines which will become a part of the paper converting equipment at one of its plants.

This is not the first time that Pasaban manufactures a folio sheeter for this factory located in the province of Guangdong, south-east of China. Therefore, for one of their latest projects (PM12), the factory has once again chosen Pasaban's technology and machinery.

The Guangdong factory belongs to the [April group](#), one of the largest cellulose and paper manufacturers in the world. It has a cut-size conversion line for the production and sale of high-quality copy paper. In 2017, due to the purchase of a new paper machine capable of producing 1,700 tons of paper a day, they found it necessary to complete the equipment with the latest technology conversion machinery that ensured a high-quality finished product.

*Pasaban's [KB sheeters](#) are the right solution for [paper and cardboard](#) factories.*

For the design of the cutters for the Asia Symbol factory, the characteristics of the manufactured paper were considered; high-quality copy and offset paper of 50 to 150 gsm. The result, a solution tailored to their needs, 2 KB 2000 cutters with 8 unwinders capable of producing at a speed of 320 m/min.

Once again Asia Symbol banks on Pasaban's paper converting equipment in order to continue offering a high-quality product that places them among the world's largest cellulose and paper producers.
