

2020-02-10

Once more, Pasaban will be present at Drupa 2020, the international printing technology trade fair to be held from 16 to 26 June in Düsseldorf. Held every four years, the fair receives 260,000 visitors from 183 countries, mainly from the printing and packaging industries.

Pasaban will be exhibiting its range of **paper and cardboard converting equipment**, showing off its sheeting and winding machinery, which continues to be a guarantee of the very highest quality around the world, to all visiting its stand.

Since the last Drupa, Pasaban has undertaken major projects for blue-chip companies in the paper industry, from large manufacturers to converters, printers and packagers. For all these clients, Pasaban manufactures a wide range of **paper and board sheeters** and **winders**.

Among the main converting group projects, those undertaken on behalf of Pyroll, Okab and Stora Enso are worthy of special mention. From the printing and packaging sector we should highlight Autajon Packaging, CGP Industries, Delta Packaging, MM Packaging and Westrock Packaging.

In this year's Drupa we will be presenting one of our latest machines, the **COMPACT** sheeter. With two models available, the **C145** and the **C165**, this sheeter is the ideal solution for paper and cardboard converters and printers with medium production volumes. Its modular and scalable system makes operation smoother, offering the flexibility required to meet today's demanding production needs.

In addition, we are delighted to invite you to our **Showroom** located at our central offices featuring the COMPACT. Anyone willing to cut and test the performance and versatility of the sheeter together with his own paper is invited. If you are interested in visiting our **showroom**, make an appointment through our website **contact** section or by contacting one of our sales representatives at the fair.

Reliability, precision and high **cutting speed** are some of the core values that characterise Pasaban machinery. With more than 90 years of experience, we are the benchmark in the paper converting industry.

Come visit us at **Drupa 2020**. We will be delighted to show you our latest solutions aimed to fulfil your cutting requirements. Find us at **Stand no. B29** in **Hall 14**.

See you there!
